Whatcom County Shoreline Master Program

Birch Bay

Area Designations

- Urban
- Rural
- Shoreline Residential
- Natural
- Tribal
- Cherry Pt. Management Area
- Aquatic

Approximate SMP Jurisdiction

- Shoreline
- River or Stream
- Overwater Structures
- Building Structure (within 200' of Shorelines)

Administrative Boundaries

- Urban Growth Areas
- Township
- City

Map designations have been applied to identify floodprone areas. Such areas are not to be construed as the jurisdiction of this program.

Data Sources:

Shoreline Jurisdiction and shoreline features come from 2004 aerial imagery. Shoreline areas were assigned by shoreline reach breaks and parcel boundaries (If available).

Resolution: 1' DEM resolution was maintained as the layer was produced. The mass data, maintained at a 200' resolution, is based on the parcelization of the shoreline area. The resolution increased to 1' in areas of potential development.

Map prepared from the following project: "Data Integration for Shoreline Management Program" Project 4.10.090

Drawing Map: P. Gill
