SEPA Determination of Nonsignificance (DNS)

File: SEP2013-00060

Project Description: Replace existing single family residential dock.

Proponent: Bryan Clifton

Address and Parcel #: 2654 Lake Whatcom Blvd APN#: 380336084251

Lead Agency: Whatcom County Planning & Development Services

Zoning: Rural **Comp Plan:** Rural

Shoreline Jurisdiction: Shoreline Residential & Aquatic

The lead agency for this proposal has determined that with proper mitigation, no significant adverse environmental impacts are likely. Pursuant to RCW 43.21C.030(2)(c), an environmental impact statement (EIS) is not required. This decision was made following review of a completed SEPA environmental checklist and other information on file with the lead agency. This information is available to the public on request.

There is no comment period for this DNS.

Pursuant to WAC 197-11-340(2), the lead agency will not act on this proposal for 14 days from the date of issuance indicated below. Comments must be received by October 11, 2013 and should be sent to: Sam McDaniel

Responsible Official: Tyler Schroeder

Title: Planning Manager

Telephone: 360-676-6907

Address: 5280 Northwest Drive
Bellingham, WA 98226

Date of Issuance: September 27, 2013 **Signature:** _____

A handwritten signature in blue ink, appearing to be "Tyler Schroeder", is written over a horizontal line.

An aggrieved agency or person may appeal this determination to the Whatcom County Hearing Examiner. Application for appeal must be filed on a form provided by and submitted to the Whatcom County Current Planning Division located at 5280 Northwest Drive, Bellingham, WA 98226, during the ten days following the comment period, concluding October 21, 2013.

You should be prepared to make a specific factual objection. Contact Whatcom County Current Planning Division for information about the procedures for SEPA appeals.

PERIOD.**

SEPA Environmental Checklist

Purpose of Checklist:

The State Environmental Policy Act (SEPA), chapter 43.21C RCW, requires all governmental agencies to consider the environmental impacts of a proposal before making decisions. An environmental impact statement (EIS) must be prepared for all proposals with probable significant adverse impacts on the quality of the environment. The purpose of this checklist is to provide information to help you and the agency identify impacts from your proposal (and to reduce or avoid impacts from the proposal, if it can be done) and to help the agency decide whether an EIS is required.

Instructions for Applicants:

This environmental checklist asks you to describe some basic information about your proposal. Governmental agencies use this checklist to determine whether the environmental impacts of your proposal are significant, requiring preparation of an EIS. Answer the questions briefly, with the most precise information known, or give the best description you can.

You must answer each question accurately and carefully, to the best of your knowledge. In most cases, you should be able to answer the questions from your own observations or project plans without the need to hire experts. If you really do not know the answer, or if a question does not apply to your proposal, write "do not know" or "does not apply." Complete answers to the questions now may avoid unnecessary delays later.

Some questions ask about governmental regulations, such as zoning, shoreline, and landmark designations. Answer these questions if you can. If you have problems, the governmental agencies can assist you.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

Use of Checklist for Non-Project Proposals:

Complete this checklist for non-project proposals, even though questions may be answered "does not apply." in addition, complete the supplemental sheet for non-project actions (part C).

For non-project actions, the references in the checklist to the words "project," "applicant," and "property or site" should be read as "proposal," "proposer," and "affected geographic area," respectively.

A Background

- 1 Name of proposed project, if applicable:
Clifton Pier and Float Replacement
- 2 Name of applicant: Bryan L. Clifton
Applicant phone number: 425.867.5489
Applicant address: 13927 SE 22nd St., Bellevue, WA 98005
- 3 Contact name: Ashton Engineering Inc., Bill Haynes, PE
Contact phone number: 360.354.8179
Contact address: 5867 Crystal Springs Lane, Bellingham, WA 98226
- 4 Date checklist prepared: 8.26.12
- 5 Agency requesting checklist: Whatcom County Planning & Develop. Serv.
- 6 Proposed timing or schedule (including phasing, if applicable):
Summer or Fall 2014
- 7 Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? Yes No
If yes, explain:
- 8 List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal:
None known
- 9 Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? Yes No
If yes, explain.
- 10 List any government approvals or permits that will be needed for your proposal, if known.
WDFW Hydraulic Project Approval
WCPDS Shorelines, SEPA & Building
Permit

- 11 Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.)

Replace existing timber pier, float and timber piles with new aluminum pier supported by bare steel piles. New floating dock to be installed and anchored by bare steel piles. Install new ramp from pier to float. Decks will be grated. Overall smaller footprint of new structures to be within existing footprint.

- 12 Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.

2654 Lake Whatcom Blvd., Bellingham, WA 98229
Parcel number: 380 336 084 251 0000
T38N, R03E
Section 36

B Environmental Elements

1 Earth

- a. General description of the site:

- Flat
 Rolling
 Hilly
 Steep Slopes
 Mountainous
 Other Lake Whatcom waterfront

- b. What is the steepest slope on the site (approximate percent slope)?

2% (approx.)

- c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any prime farmland.

Soils appear to be mix of gravel, sand and silt.

- d. Are there surface indications or history of unstable soils in the immediate vicinity? Yes No

If so, describe.

- e. Describe the purpose, type, and approximate quantities of any filling or grading proposed.

None proposed

Indicate source of fill.

NA

- f. Could erosion occur as a result of clearing, construction, or use? Yes No

If so, generally describe.

- g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)?

No impervious structures are proposed. Total area of site including second class shorelands is unknown. Total area of proposed replacement structures over water is about 360.8sf versus the existing approximate area of 456.5sf.

- h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any:

None proposed

2. Air

- a. What types of emissions to the air would result from the proposal (i.e., dust, automobile, odors, or industrial wood smoke) during construction and when the project is completed?

No emissions once project is complete.

If any, generally describe and give approximate quantities if known.

During construction, exhaust from backhoe equipment and work boat.

- b. Are there any off-site sources of emissions or odor that may affect your proposal? Yes No

If so, generally describe.

- c. Proposed measures to reduce or control emissions or other impacts to air, if any:

None proposed

3. Water

a. Surface:

- (1) Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? Yes No

If yes, describe type and provide names. If appropriate, state what stream or river it flows into.

Lake Whatcom

- (2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? Yes No

If yes, please describe and attach available plans.

Replace pier, float and piles. See attached plans and/ or Shoreline Application.

- (3) Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected.

NA

Indicate the source of fill material. NA

- (4) Will the proposal require surface water withdrawals or diversions? Yes No

50

Give general description, purpose, and approximate quantities if known.

Does the proposal lie within a 100-year floodplain?
Yes No

If so, note location on the site plan.

(5) Does the proposal involve any discharges of waste materials to surface waters?
Yes No

If so, describe the type of waste and anticipated volume of discharge

b. Ground

Will ground water be withdrawn, or will water be discharged to ground water? Yes No

Give general description, purpose, and approximate quantities if known.

(1) Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, containing the following chemicals.....; agricultural; etc.). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.

NA

c. Water runoff (including stormwater):

(1) Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known).

NA

Where will this water flow?

Will this water flow into other waters? Yes No

If so, describe.

(2) Could waste materials enter ground or surface waters?

Yes No

If so, generally describe.

d. Proposed measures to reduce or control surface, ground, and runoff water impacts, if any:

None proposed

4 Plants

a. Check types of vegetation found on the site:

- Deciduous tree: alder, maple, aspen, other
- Evergreen tree: fir, cedar, pine, other
- Shrubs
- Grass
- Pasture
- Crop or grain
- Wet soil plants: cattail, buttercup, bullrush, skunk cabbage, other
- Water plants: water lily, eelgrass, milfoil, other
- Other types of vegetation

b. What kind and amount of vegetation will be removed or altered?

Small area (~ 8sf) of grass lawn currently growing at head of pier may be altered, for simply covered, for installation of timber steps.

c. List threatened or endangered species known to be on or near the site.

None known

- d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any:

None proposed

5. Animals

- a. Check any birds and animals, which have been observed on or near the site or are known to be on or near the site:

Birds:

- | | |
|--|--|
| <input checked="" type="checkbox"/> Hawk, | <input checked="" type="checkbox"/> Heron, |
| <input checked="" type="checkbox"/> Eagle, | <input checked="" type="checkbox"/> Songbirds; |
| <input type="checkbox"/> Other: | |

Mammals:

- | | |
|---|----------------------------------|
| <input checked="" type="checkbox"/> Deer, | <input type="checkbox"/> Bear, |
| <input type="checkbox"/> Elk, | <input type="checkbox"/> Beaver; |
| <input type="checkbox"/> Other: | |

Fish:

- | | |
|--|---|
| <input checked="" type="checkbox"/> Bass, | <input checked="" type="checkbox"/> Salmon, |
| <input checked="" type="checkbox"/> Trout, | <input type="checkbox"/> Herring, |
| <input type="checkbox"/> Shellfish; | <input type="checkbox"/> Other: |

- b. List any threatened or endangered species known to be on or near the site.

None known

- c. Is the site part of a migration route? Yes No

If so, explain.

*PACIFIC
FLYWAY*

- d. Proposed measures to preserve or enhance wildlife, if any:
Other than meeting requirements of WDFW, none proposed.

6. Energy and Natural Resources

- a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.

NA

- b. Would your project affect the potential use of solar energy by adjacent properties? Yes No

If so, generally describe.

- c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any:

NA

7. Environmental Health

- a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste that could occur as a result of this proposal? Yes No

If so, describe.

(1) Describe special emergency services that might be required.

(2) Proposed measures to reduce or control environmental health hazards, if any:

b. Noise

- (1) What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)?

None

- (2) What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site.

Construction noise related to demolition and construction activities.
Construction activities will be limited to daylight hours.

- (3) Proposed measures to reduce or control noise impacts, if any:

None proposed.

8 Land and Shoreline Use

- a. What is the current use of the site and adjacent properties?

Residences, and single adjacent lot, with fixed piers, floats and boat lifts.

- b. Has the site been used for agriculture? Yes No

If so, describe.

- c. Describe any structures on the site.

Existing fixed timber pier, timber floating dock, timber piles, concrete bulkhead, and shed.

- d. Will any structures be demolished? Yes No

If so, what?

Existing timber pier, float and piles.

- e. What is the current zoning classification of the site?

R5A

- f. What is the current comprehensive plan designation of the site?

Rural

g. If applicable, what is the current shoreline master program designation of the site?

Shoreline Residential

h. Has any part of the site been classified as an "environmentally sensitive" area? Yes No

If so, specify.

LAKE W/HA. CON - CRITICAL AREA

UPLAND - HABITAT CONSERVATION AREA

i. Approximately how many people would reside or work in the completed project?

NA

j. Approximately how many people would the completed project displace?

NA

k. Proposed measures to avoid or reduce displacement impacts, if any:

NA

l. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any:

NA

9 Housing

a. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing.

NA

b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing.

NA

- High
 Middle
 Low-income

- c. Proposed measures to reduce or control housing impacts, if any:

10 Aesthetics

- a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?

Two new anchor piles will have a cut off elevation of +319.0'.

- b. What views in the immediate vicinity would be altered or obstructed?

None

- c. Proposed measures to reduce or control aesthetic impacts, if any:

None proposed.

11 Light and Glare

- a. What type of light or glare will the proposal produce? What time of day would it mainly occur?

NA

- b. Could light or glare from the finished project be a safety hazard or interfere with views?

No

- c. What existing off-site sources of light or glare may affect your proposal?

None

- d. Proposed measures to reduce or control light and glare impacts, if any:

NA

12 Recreation

- a. What designated and informal recreational opportunities are in the immediate vicinity?

Boating, swimming, and fishing.

- b. Would the proposed project displace any existing recreational uses? If so, describe.

No

- c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any:

None

13 Historic and Cultural Preservation

- a. Are there any places or objects listed on, or proposed for, national, state, or local preservation registers known to be on or next to the site? If so, generally describe.

None known

- b. Generally describe any landmarks or evidence of historic, archaeological, scientific, or cultural importance known to be on or next to the site.

None known

- c. Proposed measures to reduce or control impacts, if any:

NA

14 Transportation

- a. Identify public streets and highways serving the site, and describe proposed access to the existing street system. Show on site plans, if any.
Lake Whatcom Blvd.

- b. Is site currently served by public transit? Yes No
If not, what is the approximate distance to the nearest transit stop?

NA

- c. How many parking spaces would the completed project have? How many would the project eliminate?

NA

ST

d. Will the proposal require any new roads or streets, or improvements to existing roads or streets, not including driveways? Yes No
If so, generally describe (indicate whether public or private).

e. Will the project use (or occur in the immediate vicinity of)

- Water,
- Rail, or
- Air transportation?

If so, generally describe.

NA

f. How many vehicular trips per day would be generated by the completed project? If known, indicate when peak volumes would occur. NA

g. Proposed measures to reduce or control transportation impacts, if any:

15 Public Services

a. Would the project result in an increased need for public services (for example: fire protection, police protection, health care, schools, other)?

Yes No

If so, generally describe.

b. Proposed measures to reduce or control direct impacts on public services, if any.

16 Utilities

a. Check utilities currently available at the site:

- | | |
|--|---|
| <input checked="" type="checkbox"/> Electricity | <input type="checkbox"/> Natural gas, |
| <input checked="" type="checkbox"/> Water, (ASSUMED) | <input checked="" type="checkbox"/> Refuse service, |
| <input type="checkbox"/> Telephone, | <input type="checkbox"/> Sanitary sewer, |
| <input type="checkbox"/> Septic system, | <input type="checkbox"/> Other. |

- b. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed.

None proposed.

SIGNATURE

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

Date Submitted: _____

9/23/13

C Supplemental Sheet for Non-project Actions

(Do not use this sheet for project actions)

Because these questions are very general, it may be helpful to read them in conjunction with the list of the elements of the environment. When answering these questions, be aware of the extent the proposal or the types of activities likely to result from the proposal, would affect the item at a greater intensity or at a faster rate than if the proposal were not implemented. Respond briefly and in general terms.

- 1 How would the proposal be likely to increase discharge to water; emissions to air; production, storage, or release of toxic or hazardous substances; or production of noise? There will be a short term increase during construction of emissions to the air.

Proposed measures to avoid or reduce such increases are: None proposed

2. How would the proposal be likely to affect plants, animals, fish, or marine life? Not likely to adversely impact fish. Reduction in pile count and structural footprint along with increase in light transmission through proposed structures should have a beneficial impact on fish.

Proposed measures to protect or conserve plants, animals, fish, or marine life are: Other than items mentioned above, none proposed.

3. How would the proposal be likely to deplete energy or natural resources?

Not likely.

Proposed measures to protect or conserve energy and natural resources are:
NA

4. How would the proposal be likely to use or affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection; such as parks, wilderness, wild and scenic rivers, threatened or endangered species habitat, historic or cultural sites, wetlands, floodplains, or prime farmlands? NA

Proposed measures to protect such resources or to avoid or reduce impacts are:

NA

5. How would the proposal be likely to affect land and shoreline use, including whether it would allow or encourage land or shoreline uses incompatible with existing plans?

The proposed repairs are in keeping with the current land and shoreline uses.

Proposed measures to avoid or reduce shoreline and land use impacts are: NA

6. How would the proposal be likely to increase demands on transportation or public services and utilities? NA

Proposed measures to reduce or respond to such demand(s) are: NA

7. Identify, if possible, whether the proposal may conflict with local, state, or federal laws or requirements for the protection of the environment. None known.
