TRAFFIC LIMITATIONS

Project Manager -
Kraig Olason

Birch Bay Drive/Harborview Road Between Cottonwood Drive and Harborview Road

This project develops a new stormwater conveyance system along Birch Bay Drive from 8100 Birch Bay Drive to the intersection of Birch Bay Drive and Harborview Road. Upgrades to the current drainage system north on Harborview Road from Birch Bay Drive to Birch Bay Lynden Road are also included as well as a new marine outfall which will serve both the Harborview and Birch Bay Drive drainage systems. To facilitate final design plans, archaeological test excavations are necessary. This will require work within the roadway.

- Beginning Friday October 20th for approximately one week
- Hours of the Day 8 AM – 5 PM
- Single lane flagged traffic will be in effect
- Expect minor delays
