DEAR planning board members,

My husband and I have lived and owned our home at Sandy Point since 1977. We love the neighborhood and all of us take much pride in our close knit community.

This past year many of our members have spent countless hours on our canal dredging project. We all depend on the opening of this canal to remain open and NAVIGABLE for not only recreational purposes but also for oil response and medical reasons. It is almost impossible for us to take our small boat through the entrance.

We appreciate your time and interest in our area and please ask that you approve our dredging application.

Thank you very much.

Lot 13

Most sincerely,
Dianne Higgins.
