

Upcoming Construction Project Notification

Roberts Road/Anderson Creek Bridge No. 249 Replacement CRP No. 915020

Project Newsletter Number 2

May 2, 2018

Project Location: Roberts Road at Anderson Creek located approximately 1,200-feet north of Goshen Road.

Project Details: Whatcom County Public Works is planning to replace the existing 69-foot channel girder bridge on timber caps and piles with an 83-foot span precast, prestressed voided slab bridge. Work will also include approach slabs, roadway approach work and guard rail installation.

The construction contract for this project has been awarded to Strider Construction, Inc.

Traffic Limitations: Roberts Road will be closed at this location during construction which is anticipated to start late in June or early July of 2018 and continue through November. A signed detour will be in place during construction which will include opening a currently closed portion of Roberts Road between Martin Road and Central Road as well as utilizing Central Road, Mission Road, Fazon Road, and Goshen Road. After construction is complete the currently closed portion of Roberts Road will be closed again.
