Precise location of proposed trails has not yet been determined

* Proposed trail corridors reflect the County’s goal of developing county-wide trail network which have been identified through a parks and recreation public planning process that span decades. Long range parks and recreation goals and policies emphasize a cooperative approach, working with willing land owners to accomplish recreational goals.

Note: Trails sharing the same corridor are depicted separately to illustrate that they are different trails. More than one trail sharing the same corridor will generally be constructed as a single trail.
