Subject: Cherry Point Moratorium

Dear Council Members,

Please continue the moratorium on unrefined fossil fuel exports at Cherry Point until we have permanent language in place to protect our community. I am very concerned that we, as citizens of Whatcom County, have a right to receive environmental impact reviews on industries that pose threats to our environment and health. We need ordinances and rules in place so that no new permits are cleared without the total review of all aspects of these projects. We must continue the moratorium until rules and the ordinance on the revision of the Cherry Point UGA are in place.

Thank you for your service and look forward to the meeting and discussion on Wednesday evening.

Sincerely,
Judith Akins
