Subject: Interim Cherry Point Ordinance - Wed Aug 8 meeting

I support the interim moratorium regarding shipment of unrefined fossil fuels out of Cherry Point. Better to continue working on the amendments to the comprehensive plan re Cherry Point UGA. A lot of time and information has gone into their development.

Although I see signs saying "Preserve Jobs at Cherry Point" opposing this interim moratorium, I say "Conserve Jobs at Cherry Point" by supporting this moratorium and proposed amendments. I fear opening availability to shipping unrefined fossil fuels out of Cherry Point might actually lose jobs as oil companies find shipping out unrefined fossil fuels is easier and simpler and more lucrative than refining oil.

And what about the Orcas? We do not NEED more marine traffic on the Salish Sea. Our environment - land, water, air - a precious plus for Whatcom County and Washington State. We do not need more trains or pipelines to ship out of country.

Sincerely,
Phyllis Graham
Birch Bay
