Subject: More protective amendments

Dear council members,

I am adding my voice to the deafening choir which is asking you to PLEASE extend the temporary moratorium on permits for unrefined fossil fuel transshipment expansions in the Cherry Point UGA. Our dying orcas, the quality of our water, the fishing rights of our first nations people and the protection of our way of life demand it. Better yet, take a strong stand and deny these permits in perpetuity! You will be leaders by example, and hopefully others in position of power can follow suit.

We must do all we can at the local and state level to counteract the madness, volatility and unbridled greed, particularly with respect to the petroleum industry, of the current administration. Our earth and our very survival depends on it.

We're counting on you to remain sane and to act with principle.

Thank you.

Sincerely,

Holly Harris  
Bellingham, WA
