**Subject:** Temporary Cherry Pt. Moratorium

I appreciate the Council's majority vote to extend a temporary moratorium of Cherry Point. I applaud this action. It is vital to hold our waters and environment to the highest level of protection. Our earth is in a fragile place presently. To preserve the beauty of Whatcom County, to protect the people and animals and fishes, we need to hold off making changes to the status of Cherry Point until county code revisions are complete. It is up to this generation to protect our space for future generations. It is up to us to stop the further releasing of toxic emissions into the commons. We can accomplish this lofty goal by understanding the consequences.
