To: Council
Subject: Thank you for extending the moratorium at Cherry Point.

I realize what a difficult path this has been. It is so appreciated by so many of us that you have continued to protect the health and safety of the people and waters of Whatcom County.

It is a little disconcerting to me that the two council people who voted no on this extension: Council person Brennan, a long time councilperson and Council person, Bird, a new councilperson can't vote in favor of the majority of the people of Whatcom County. When Councilman Bird said that the billionaire owners of the refineries were not at the August 8 2018 meeting to speak in opposition of the ordinance I knew he had not been at the meetings of past years when they all turned up and spoke in strong opposition. Councilman Bird clearly has not been involved in the several years of testimony about this issue. I have to admit while I appreciate Councilwoman, Brennan's heart felt and honest assessment I am baffled how she comes to her conclusions.

Again, want you to know how much the majority opinion: steadfast and rational support by our Council Council is recognized and appreciated by all of us.

Wishing you continued courage on behalf of your constituency,

Brooks Anderson
