Building Permit Final Re-Inspection

Policy: PL1-74-002Z Building Permit Expiration Policy: When an issued building permit has expired and available records verify that only a checklist or final inspection remain to complete the building permit, an applicant/owner can close out the permit by scheduling the checklist inspection or final inspection. The inspection shall be prepaid. The fee is \$123.60, designated per the Unified Fee Schedule as a re-inspection (UFS #8421). Additional inspections may be required, per the judgment of the Public Service Inspector, before the building permit can be completed and certificate of occupancy issued. Each additional inspection must be prepaid at the designated fee of \$123.60 per inspection.

I would like to request a final re-inspection for my permit.
