To: Council  
Subject: Cherry Point

To Whatcom County Councillors:

The Council has been engaged in an extremely significant planning process that will affect the future of our county and the Salish Sea. I urge the Council to extend the interim moratorium on any new development at Cherry Point that would involve shipping unrefined fossil fuel. This is such an important issue; a decision should not be rushed. The moratorium should be extended until the work on code amendments is finalized. I appreciate all the effort that has been given to study the long-term effects of how Cherry Point can best be used to benefit sustainable jobs and the environment.
