Subject: I support strong ecological protections at Cherry Point

Dear Whatcom County Council:

Thank you for your continued work on creating strong protections against pollution and other negative impacts and catastrophes related to fossil fuel projects at Xwe'chi'eXen, Cherry Point. I looked over your August 5 draft changes today and understand you are working today on those amendments to the Comprehensive Plan regarding Cherry Point.

I continue to call on you to keep our climate crisis, Cherry Point Herring stock, Southern Resident Orcas, the historical and cultural territories of Lummi Nation, the ecosystem of the Cherry Point Aquatic Reserve, and all the nearby communities, lands, air, and waters in mind in your efforts to advance a thriving and respectful community for many generations to come through the work that you are currently doing. Your work must result in a swift transition away from all fossil fuel and other toxic energy projects that would contribute to climate crisis or preventable disasters to our community and ecosystems.

Sincerely,

Dena Jensen
Birch Bay, WA
