Subject: Support for proposed land use amendments for Cherry Point
Date: Sunday, September 08, 2019 10:21:32 PM

Dear Planning Commission,

I am unable to attend the Town Hall meeting this Thursday September 12th concerning the proposed land use amendments for Cherry Point, so I am writing to express my support for these proposed changes. So much thought and attention has been given in these proposed amendments to our responsibility to better protect our marine and terrestrial environments from industrial degradation, and now is the time to permanently enact these protections.

Thank you for your time and attention to this truly important issue.

Kai Breshem
