Good Morning,

My name is Janet Forslof, and I work for Western Refinery Services, Inc.. I oppose the County's proposed changes to the Cherry Point Comprehensive Plan and Code. The upgrades are vital for worker safety and ensuring the refineries remain a viable asset. Please do not impose these changes that will kill the refining industry in Whatcom County.

This is personal, my job is directly affected by these proposed changes.. My husbands job is affected and he works down in the Bellingham Marina.

We live in a great part of Washington State, I have personally witnessed the care, and safety that P66 and BP have taken to ensure the future and safety of not only their own employees, but the future employees in the years to come. They care about the environment, and work very hard to promote safety and environmental concerns.

Please do not jeopardize the future of Whatcom County.

Sincerely,  
Janet Forslof
