Good morning,

I am not able to make the meeting tonight at the courthouse but I wanted to make known that I strongly oppose the proposition that being brought up in the courthouse tonight.

I work for Western Refinery Services and knowing all the details to what is being brought up for question leads me to believe that these changes will prevent permit approvals for the future projects at the refinery, including safety and infrastructure upgrades that are crucial to the refinery functioning in a safe manor for our families that work there.

Please don't approve this change. The refineries are an important part of our economy here in Whatcom County. They help supply jobs for all our families and continue to bring in employment into the county.

Thank you for your time,

Kristi Grande
