To whom it may concern;

My name is Ben Johnson and I am an employee of a contractor that works for the Ferndale Refinery Phillips 66 and I am emailing you to let you know that I am in opposition of the Comp plan. With this plan you are putting me and my fellow workers at risk of losing our jobs and at a great safety risk. If the plan is accepted we will be looked over for safety improvement and upgrades in our facility and not looked at for expansion because you put us at a great disadvantage. Would you spend money on something that may not come through in the end. That is what you are doing to us if you pass this plan from a corporation aspect. Also my wife and three kids need me to work to support our family and need me home every night to love and support them and with this plan our safety upgrades could not happen and make this a riskier place to work. Please look into the future and don't pass this plan. We need these jobs and companies in our community. With out them we lose a lot of money and jobs. Do the right thing and STOP and Think. I OPPOSE the comp plan. Thank you for your time!
