I've worked in the refining industry since I was 18 I'm 40 now. I've supported my family off of the money from P66 for the last 13 years. This industry is one of the safest places I've ever been. Not letting the refinery expand and get permits for adding additional safety measures is ridiculous. Every penny I spend is in Whatcom county, my taxes along with many many others goes to the county as well. Slowing this industry down is gonna cause a lot of people to lose their jobs and money into the community. Please do not pass this. Please listen to reason. Thanks for reading.
