Subject: Revise County Code
Date: Tuesday, September 17, 2019 10:28:45 AM

Dear Planning Commissioners,

There is an urgent need to reform county code so that Whatcom County is empowered to reject projects that unreasonably threaten the health and safety of people and ecosystems. We need to ensure that existing industries are held accountable not to increase hazards, but rather invest in upgrades that reduce pollution and risk while creating jobs. In your review of the proposed amendments, we will appreciate that you listen to public input, engage in open dialogue and promote transparency in the remainder of the public review process for these important legal protections.

Thank you for your volunteer service to our communities.
