Subject: Support Cherry Point Amendments!
Date: Wednesday, October 02, 2019 10:11:32 AM

The time to set high standards on polluting industries is long past.

Thank you in advance for restricting the growth of the Cherry Point Refinery, requiring them to meet higher standards and denying the development of more shipping terminals on such a critical and environmentally sensitive place.

You have the communities support!

Please continue to represent the values of your community by turning away from fossil fuels.

The time for incremental change is over!

Sincerely,

Corey Havens
