Subject: Resolution 2019-037
Date: Monday, October 07, 2019 9:27:15 PM

Dear commissioners,

Please approve the draft amendments which would require that:

- Unrefined fossil fuels are prevented from being shipped from Cherry Point.
- New supporting infrastructure, including a new pier, is either prohibited or would require a conditional use permit to keep the new infrastructure from being sold and repurposed.
- All new construction will be subject to permitting.

Thank you for your support of these important measures.

Karen L. Holderman
