Subject: Support the Cherry Point land-use code amendments
Date: Monday, October 07, 2019 11:10:18 AM

Planning Commission members:

The Whatcom County Council has worked long and diligently to arrive at appropriate and legally robust language amending the Cherry Point land-use code amendments so as to protect existing investment and—most importantly—protect our precious coastal waters and the health and safety of county residents. As an islander vulnerable to any marine accident, I deeply appreciate the Council's efforts.

I understand that there is considerable industry pressure to weaken these provisions before the final Council consideration and vote, and I urge you to stand firm behind the excellent work that has been done. DO NOT WEAKEN THE CODE AMENDMENTS. Do the right thing by us, our children and grandchildren, and the planet.

Thank you,

Myra Ramos
