Subject: Cherry Point

Energy companies continue to scam...

Locally in Whatcom County, BP and Phillips 66 obfuscate, lie, distort and mislead about the impacts of the proposed Cherry Point amendments. They know it. Those of us who pay attention know it.

You should know it because it is part and parcel of the propaganda used to rationalize and justify the environmental war perpetrated on the planet by the fossil fuel industry. Their "generals" are the CEOs, boards, and executive management. Their "armies" are the extractors, refiners and allied support. Their "political" funders and enablers are the stockholders and elected officials.

They don't give a damn about anything other than profit.

Read the article and KNOW it.

Dana
