Subject: defending Cherry Point

Honorable Council,

Please prohibit unrefined crude from being shipped from Cherry Point.

The good jobs in fossil fuel are in the refinery process. Shipping unrefined fossil fuel to Asia will result in the good jobs following the oil to Asia.

And the damage to the atmosphere when Asia burns it, and the inevitable damage if it spills, those damages the industry is simply not prepared to compensate us taxpayers for, not can they.

The ocean has absorbed about all the Co2 it can, and will give it back to the atmosphere. This is a crisis, We have the right to protect our health and our children's future.

Thank you.

Sincerely,

Jean Waight
