Subject: Extend the Moratorium

County Council Members,

I am hoping you continue the wisdom you have shown in the past by extending the moratorium. Please don't allow more shipping of coal and oil out of Cherry point because of the increased chance of an oil spill and the negative impact burning of fossil fuels has on our environment. This is the time we are looking - or should be looking - at alternatives to fossil fuel and I have been proud that our county council has been strong in it's opposition to any expansion at Cherry point. I wish employees at the refineries would understand their jobs will not be threatened, we are not shrinking the ability to refine out there, we just don't want expansion.

Needless to say this is sacred land to the Lummi and the fishing industry will be decimated by the destruction of the eel grass and herring spawning grounds.

Please stand strong on this,

Sheri Lambert
