Subject: Moratorium

Dear Council Members,

Lets finish the work. We certainly hope this is the last moratorium on Cherry Point industry. But lets get it right. The Donovan amendments to the Comprehensive plan must be passed. Rumors abound that there is big news coming out of BP and the Port, If true that something is being formulated we should hear it. If it does not reduce greenhouse gases we should reject it. There is no time left to dither,. Half measures will not preserve this planet for the next generation. BP workers and Phillips 66 workers have their children to think of too. Do they want to face their kids someday as the world's disasters increase and say " I just couldn't see past the immediate future—I just couldn't change." I don't—and I don't think they do. Each of us are responsible to make the changes we can make in our life style—you the elected are responsible to make the big decisions. Be resolute. Protect our planet.

Thank you,
Jayne Freudenberger, 1704 Euclid 98229
