Subject: Cherry Point Amendment

Honorable Council Members:

I am in favor of the Cherry Point Amendment that would impose improved evaluation of future fossil fuel emissions in our county. As a state, Washington has recognized our responsibility to immediately begin reducing our current carbon emissions in order to address human-caused climate change. Evidence of the last decade indicates that the risks of climate change are much greater, and growing more rapidly, than previously thought. It is imperative that we as a people respond quickly and thoughtfully to this changing threat. The Cherry Point amendment enables us to more responsibly do that. Whereas, not passing the amendment, "kicks the can down the road", so to speak. And imposes greater risks on future generations.

Thank you,

David Hostetler
Bellingham, WA
