Subject: Cherry Point Moratorium

Dear Council Members,

I just wanted to thank you all for your concern tonight about the moratorium. While I fully support "getting this done right" and your vote for continuing the moratorium so that the Council can have the decision of the Planning Commission before approving the final language on the Cherry Point Amendments. I know that Council members Mr. Byrd and Ms. Brenner had opposing views and really appreciate them both speaking about their concerns and feelings on the issue. (Tyler, I honestly thought you might say yes after your discussion.) I found that Council member Frazey had a great answer to critics and industry that always say that they are being forced to leave while the facts point out CP refineries appear alive and well right now after 3 years of the moratorium.

I always think the Council members should speak first and last so that the citizens know just what your thoughts and ideas on issues are. I try to always wait until you speak so that I can hear your ideas. I really appreciated Council member Donovan's remarks and how hard it has been for him. I have listened to Council members Sidhu, Buchanan and Browne at other meetings and encourage you all to give us that viewpoint that only you have. It really helps that public understand what you feel is important.

Sincerely,
Judith Akins
