djohnson@co.whatcom.wa.us

Please join us to learn more about the Nooksack River Floodplain Integrated Planning (FLIP) Process

What is FLIP?

- A local planning process to update and broaden the 1999 Lower Nooksack River Comprehensive Flood Hazard Management Plan
- An integrated effort to address flooding, salmon needs, and floodplain land uses

Meeting Purpose:

- Provide information on flooding, salmon needs, land use, and the FLIP process
- Get your input to identify and prioritize potential projects
- Focus of this meeting will be the mainstem river downstream of Deming

*For more information please contact Public Works at (360) 778-6288
Para información en Español por favor póngase en contacto con obras
públicas en el teléfono (360) 778-6288. Gracias.*

Meeting Location:

**BP Place Building
Northwest Washington
Fairgrounds
1775 Front Street
Lynden, WA 98264**

Directions:

From WA-Route 539, Guide Meridian, turn East onto Kok Rd. and drive approximately 1.5 miles. Enter fairgrounds on the left at Gate 8. The BP Building is centrally located inside of the fairgrounds.
