

Way Station Virtual Learning Summit
Monday, June 8, 2020 from 10:00 to 11:30 a.m.

Whatcom County has long faced challenges in providing access to hygiene services and respite for vulnerable people experiencing homelessness. Partners have come together in the last year to envision a safe and welcoming facility with hygiene services, primary care, respite and supportive case management under one roof.

Join us to learn about The Way Station and hear from an expert panel about their experiences setting up similar models in Seattle and Los Angeles. A panel of local leaders will then introduce the critical needs in Whatcom County and how a model such as this can fill the gaps in the care continuum. Take advantage of this unique opportunity to bring learning local in service to those that need us most.

Feature panelists include

- Low Income Housing Institute Director of Housing Management Leigh Ann Coleman
- Edward Thomas House Medical Respite Medical Director Dr. Leslie Enzian
- Care Management Consultant and Illumination Foundation Board Member Ginny Ripslinger, RN, MBA

Date & Time: Monday, June 8, 2020 from 10:00 to 11:30 a.m.

[RSVP here](#) to receive virtual login.
