**Subject:** Extend Moratorium

Dear County Council Members,

I urge the County Council to extend the moratorium that prevents pass-through shipment of unrefined fossil fuel at Cherry Point. I also urge you to pass strong regulations this year that will help prevent industrial damage to the land, waterways, wildlife and people of the Pacific Northwest.

We should take responsibility for the whole of Nature and do our best to protect the beautiful spot we live in.

Thank you,

Martha Hammer
