Subject: Keep the Cherry Point fossil fuel moratorium

Honorable Councilmembers ,

Once again, I urge you to extend the moratorium on new and expanded fossil fuel projects at Cherry Point. It's unfortunate that the new code amendments could not be completed by this time, but to abandon the effort at this point would be crazy and a threat to our local quality of life and the urgent need to begin transitioning away from an unsustainable fossil fuel economy.

Please continue the moratorium on permits that would increase the shipment of unrefined fossil fuels through Cherry Point. Furthermore, I encourage the Council to move forward with a new zoning ordinance to implement development regulations in accordance with the Comprehensive Plan policies for Cherry Point that passed in May 2017. In order to address the risks and harms from hazardous shipments through our county, we can improve Whatcom County Code to ensure transparency about proposals and their impacts, accountability to meet standards for public safety and environmental protection, and more public participation in the process for reviewing permits for projects with significant impacts. We hope the council will complete this important and thorough rulemaking process within six months.

As fuel demand dropped this Spring, we've seen surplus oil moving through Cherry Point from trains onto ships for storage. Opening the door to further increase unrefined fossil fuel transshipment would needlessly place us at undue risk with no benefit. Now is not the time to remove what minimal protections we have in place.

Thank you for your hard work and diligent service to our communities,

Meredith Moench
