Subject: Pending Moratorium Extension

I urge in the strongest possible terms our elected Whatcom County representatives to extend the temporary moratorium on certain fossil fuel activities that would expire on June 17th without your taking action. As a parent, nothing is more important than leaving a livable world to our children. I think frequently about how our decisions and actions will be viewed by our children and grandchildren. Our community has put itself in a leadership position by taking climate action to enable a transition from fossil fuels to clean energy. Please don't let that slip away.

Thank you for your public service and please do the right thing by voting to extend the moratorium and preserving our lovely home along the Salish Sea.
