Subject: Cherry Point Moratorium

Please renew the current moratorium on permits at Cherry Point.

These are uncertain times when we should "stop, look and listen." So much unforeseen is happening at present in the oil industry - as well as Covid 16's unknown effect on our future - that we should not be making any major decisions such as negating the moratorium at Cherry Point.

Caution is the operative word here. I urge you to do the prudent thing and maintain the status quo of the moratorium.

Phyllis Graham, Birch Bay
