Subject: Cherry Point Moratorium, Please remove.

Council Members.

I am writing to pledge my support for the Cherry Point Industries, the family wage jobs they provide , and the many generous donations to they make to our community.

The world's transition from fossil fuels to renewable sources has already begun. My own home is powered by solar energy, and every one I know is becoming more energy efficient. The fossil fuel industry will fade away on it's own as energy technology improves, and the Cherry Point Refineries don't need the County Council's interference in conducting their business. The huge economic impact these industries bring to our county from is too important to meddle with.

Please end the Moratorium now!

Thank you,

Paul Lachapelle
Director of Operations
