Subject: Cherry Point Moratorium Extension

Whatcom County Council Members:

We are asking that you please make your decision on what will become of the Cherry Point Refinery. Another extension of the moratorium is simply intolerable. It may already be too late for any future expansion because of your failure to act. The real question now becomes whether or not you want to shut them down completely. Current events are having a devastating impact on our national economy and the news of Intalco leaving has the county residents reeling. The citizens of Whatcom County are asking for your honesty and we deserve it.

Respectfully,
Quinn and Tresa Kulhanek
5782 Burnham Drive
Ferndale, WA. 98248
