Subject: Moratorium

You have done enough damage to Cherry Point already. As the former Mayor of Ferndale I urge you to think of Ferndale. Think of the whole county which you represent. END the moratorium PLEASE. Do everything you can to lend a voice to the help Intalco effort. Do everything you can to possibly resurrect the Bio fuels proposal. Now is the time for the majority of you to change your past votes.

Thank You for your service !

Gary S.Jensen
