Subject: Inaccurate winter shelter information currently remains on the Whatcom County Website
Date: Friday, October 30, 2020 7:35:24 PM

Dear Homeless Strategies Workgroup:

I am hoping this email can be directed to the proper person who can remove the inaccurate winter sheltering information that currently exists at this link:

<http://www.whatcomcounty.us/3167/Homeless-Shelters>

Most all of the info on that page is now outdated and inaccurate and can potentially present hardships should people seeking shelter try to access options that are posted there.

Going hand-in-hand with this, is the importance of getting fresh information up right away about what shelter during our cold weather season is available right now, and then updating it as everyone rallies to quickly get more, and ample sheltering options for the winter up and running.

Thank you to all those stepping up the efforts to make sure people will not be left without any other option than to sleep outside this winter.

Sincerely,
Dena Jensen
Birch Bay, WA
