

PUBLIC MEETING NOTICE

SILVER BEACH CREEK PHASE 1 STORMWATER IMPROVEMENTS

Residents of Woodlake Meadows are invited to a remote public meeting hosted on the online meeting platform Zoom to discuss the County's upcoming stormwater improvement project. This project is part of the County's ongoing effort to reduce the amount of phosphorus entering Lake Whatcom and consists of installing a water quality treatment system between the outlet of the stormwater detention pond and Woodlake Road. The County will provide an overview of the project, consider potential impacts on the neighborhood, and discuss the water quality benefits. Following the public meeting, our design consultants will begin work on the final design.
