

Fish Camp Reach – Community Workshop #3

Thursday, September 15, 5:30 – 7:30 p.m.

Acme Presbyterian Church

2054 Valley Hwy, Deming, WA 98244

Meeting Goal

Share the highest ranked alternative and preliminary project design with community members, answer questions, and gather feedback.

Objectives

1. Continue collaboration between the Project Team and the Community to develop broadly-supported solutions to address flood risk and habitat degradation by building relationships and encouraging dialogue.
2. Review project goals and work to date.
3. Update community members on the design process, including:
 - a. ranking of the three alternatives,
 - b. a description of the highest ranked alternative,
 - c. the preliminary project design,
 - d. highlights of the project approach, and
 - e. expected benefits from the highest ranked alternative.
4. Answer questions and solicit feedback on the highest ranked alternative.
