

**NOTES:**

1. Commercial and Industrial roadway approaches must be approved by the County Engineer, considering both traffic safety and activity being served.
2. Driveways should be located as far from the intersection as practical but not less than table below.
3. No portion of any driveway shall encroach in the curve return.
4. No driveway shall enter into a pocket parking area.
5. See Drawings 508.D-1 and 508.D-2 for driveway approach specifics.
